-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 14-18 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 14-18 are directed to the method of making a door trim structure whereas the originally filed claims are directed to the product of a door trim structure.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 14-18 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Drawings

2. The Applicant is asked to send in a complete set of formal drawings with all of the changes that have been approved. The drawings changes that were approved were filed by the Applicant as follows: Figure 1 submitted December 9, 2003; Figure 2 submitted March 15, 2001; Figure 3 proposed drawing change submitted May 7, 2002; and Figure 4 submitted March 15, 2001.

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the functional member attachment portion including recesses and protrusions (claim 11) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Objections

4. Claim 6 is objected to because of the following informalities: in line 2, --the group consisting of-- should be inserted before "polypropylene". Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1, 3-7, 11-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Regarding claim 1, the claims are indefinite because they claim that the functional member attachment portion is part of the inner door panel. However, the paragraph that the Applicant relies on for the support for the claim states that the functional member attachment portion is part of the door trim.

8. Regarding claim 11, the claim is indefinite because it is unclear how the functional member attachment portion includes recesses and protrusions. The

Art Unit: 3612

functional member attachment portion which is reference character 8 or 7 in Figure 1, where is the recess?

Allowable Subject Matter

9. Claims 1, 3-7, 11, 12 and 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

10. The following is a statement of reasons for the indication of allowable subject matter: The primary reason for the indication of allowable subject matter is that the prior art of record does not disclose a door trim structure in which the functional attachment portion is formed by a seal between a first protrusion on the inner surface of the door trim and second protrusion on the inner surface of the inner door panel.

Response to Arguments

11. Applicant's arguments, see the response filed on December 9, 2003, with respect to the rejection(s) of claim(s) 1, 3-7 and 11-13 under Korbrechel and Gonas have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC 112, 2nd paragraph.
